Professional Summary

A passionate and detail-oriented Full Stack Developer specializing in the MERN stack with hands-on experience in designing and building responsive, high-performance web applications. Skilled in React.js, Node.js, Express.js, and MongoDB with a strong understanding of UI/UX, clean architecture, and problem-solving.

Technical Skills

Frontend: HTML, CSS, JavaScript, Tailwind CSS, React.js

Backend: Node.js, Express.js

Database: MongoDB, SQL

Programming Languages: C++, JavaScript

Others: Git, GitHub, Prompt Engineering, AI-powered Webapps

Projects

SkillSync – Job Platform (MERN Stack)

Developed a job platform where job seekers can create AI-generated CVs, find and apply for jobs, and communicate with recruiters in real time. Recruiters can post jobs, track applications, and chat with users. Features include authentication, application tracking, and real-time messaging.

Digital Polio Campaign Monitoring System

A digital solution to monitor and track vaccination campaigns in Pakistan using MERN stack and Leaflet maps. Admins can assign workers, monitor routes, and visualize real-time progress. Workers record vaccination data during pre- and post-campaign phases to ensure accurate coverage and reporting.(Under construction)

E-Commerce Web App

A responsive e-commerce platform featuring search, category filtering, add-to-cart functionality, and smooth UI interactions using React, Redux, and Tailwind CSS.

Education

Bachelor of Science in Software Engineering , CGPA: 2.86

The University of Haripur (2022 – 2026)
