Professional Summary

A passionate and detail-oriented Full Stack Developer specializing in the MERN stack with hands-on experience in designing and building responsive, high-performance web applications. Skilled in React.js, Node.js, Express.js, and MongoDB with a strong understanding of UI/UX, clean architecture, and problem-solving.

Technical Skills

Frontend: HTML, CSS, JavaScript, Tailwind CSS, React.js

Backend: Node.js, Express.js

Database: MongoDB, SQL

Programming Languages: C++, JavaScript

Others: Git, GitHub, Prompt Engineering, AI-powered Webapps

Projects

SkillSync – Job Platform (MERN Stack)

Developed a job platform where job seekers can create profiles, find and apply for jobs, and communicate with recruiters in real time. Recruiters can post jobs, track applications, and chat with users.

Key Features: RAG-based applicant analysis, AI-driven CV matching, real-time Kanban tracking, authentication, real-time messaging.

Digital Polio Campaign Monitoring System

A digital solution to monitor and track vaccination campaigns in Pakistan using MERN stack and Leaflet maps.

E-Commerce Web App

Responsive e-commerce platform with search, filtering, and cart functionality.

Education

Bachelor of Science in Software Engineering

The University of Haripur (2022 – 2026)

CGPA: 2.96 (after 7th semester)
