Professional Summary

A passionate and detail-oriented Full Stack Developer specializing in the MERN stack with hands-on experience in designing and building responsive, high-performance web applications.

Technical Skills

Frontend: HTML, CSS, JavaScript, Tailwind CSS, React.js, Next.js

Backend: Node.js, Express.js

Database: MongoDB, SQL

Programming Languages: C++, JavaScript

Others: Git, GitHub, Redux Toolkit, Socket.IO, JWT, AI-powered Web Apps

Projects

SkillSync – AI-Powered Job Portal (MERN Stack)

Live Demo: <https://skill-sync-six-hazel.vercel.app/>

Developed a full-stack job portal using MongoDB, Express.js, React.js, Node.js, Redux Toolkit, and Socket.IO. Implemented JWT-based authentication and role-based access control for applicants, recruiters, and administrators. Features include AI-powered cover letter generation, AI-driven CV matching, applicant analysis, job recommendations, real-time messaging, and application tracking.

Digital Polio Campaign Monitoring System (MERN + Next.js)

Designed and developed a digital public health platform to modernize paper-based polio vaccination campaigns in Pakistan. Implemented JWT/bcrypt authentication, role-based access control, Socket.IO real-time tracking, Zod validation, Redux-persisted state management, MongoDB aggregation pipelines, automated reporting, and dual-language support (English/Urdu).

Education

Bachelor of Science in Software Engineering

The University of Haripur (2022–2026)

CGPA: 3.0
